Video Analysis Report

Video:	week_1_20251022_222148_Enregistrement_de_lecran_2025-08-31_002203
Course ID:	4
Week:	1
Duration:	0:01:10.733333
Frames Analyzed:	8

Summary

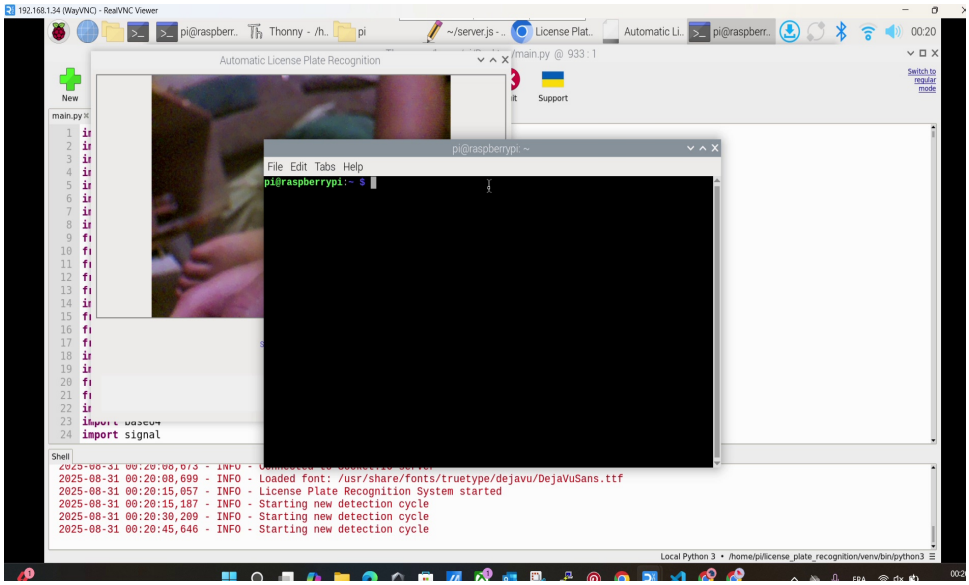
[0:00:00] Frame at 0s: Resolution 1890x1050. Normal lighting conditions. Visual content analysis requires AI model access. [0:00:10] Frame at 10s: Resolution 1890x1050. Normal lighting conditions. Visual content analysis requires AI model access. [0:00:20] Frame at 20s: Resolution 1890x1050. Bright scene with high contrast. Visual content analysis requires AI model access. [0:00:30] Frame at 30s: Resolution 1890x1050. Bright scene with high contrast. Visual content analysis requires AI model access. [0:00:40] Frame at 40s: Resolution 1890x1050. Bright scene with high contrast. Visual content analysis requires AI model access.

Video Timeline

Timestamp: 0:00:00

Visual Content:

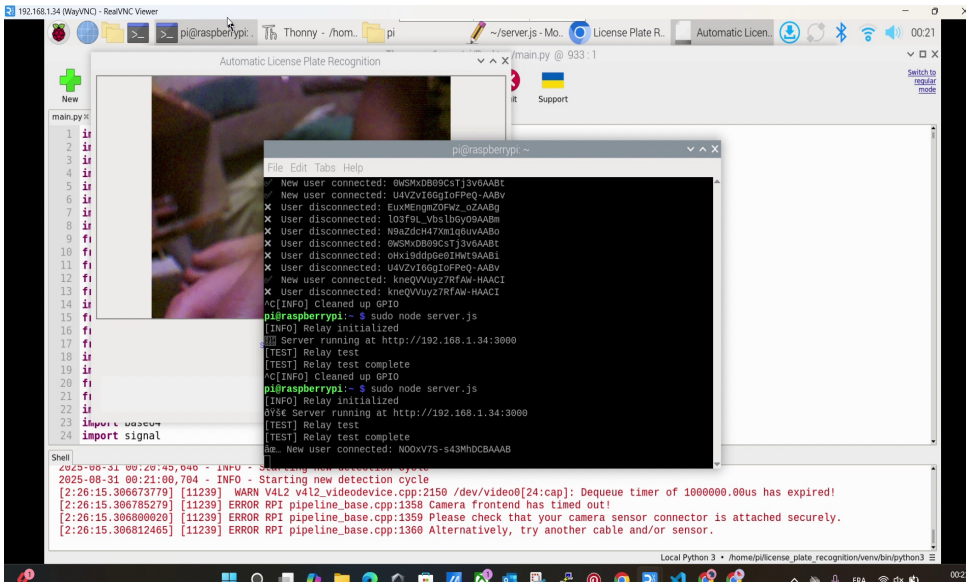
Frame at 0s: Resolution 1890x1050. Normal lighting conditions. Visual content analysis requires AI model access.



Timestamp: 0:00:10

Visual Content:

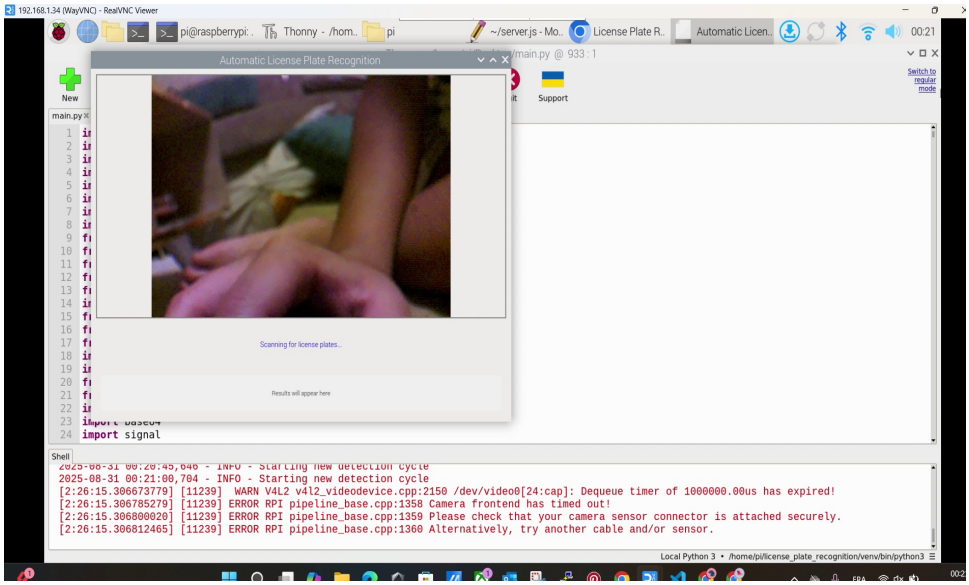
Frame at 10s: Resolution 1890x1050. Normal lighting conditions. Visual content analysis requires AI model access.



Timestamp: 0:00:20

Visual Content:

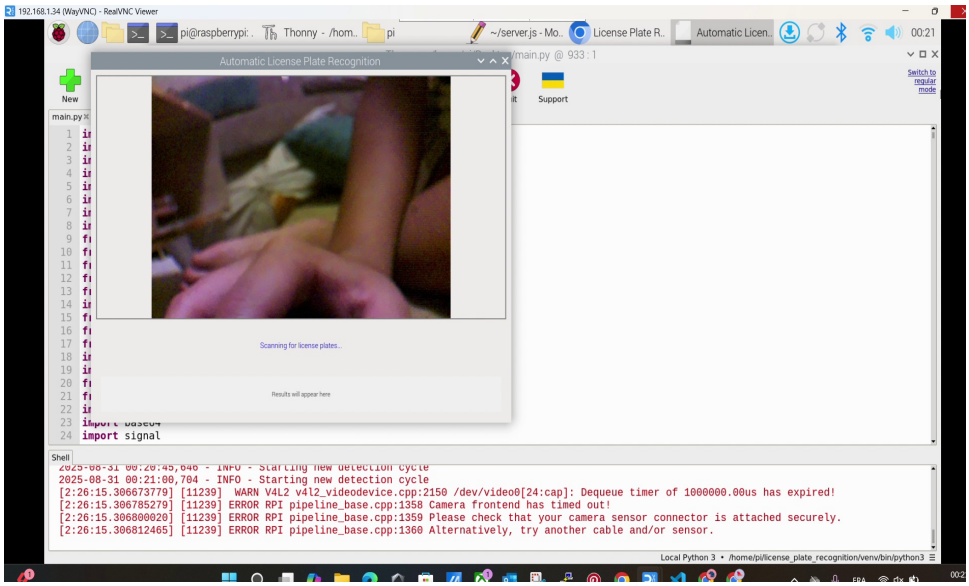
Frame at 20s: Resolution 1890x1050. Bright scene with high contrast. Visual content analysis requires AI model access.



Timestamp: 0:00:30

Visual Content:

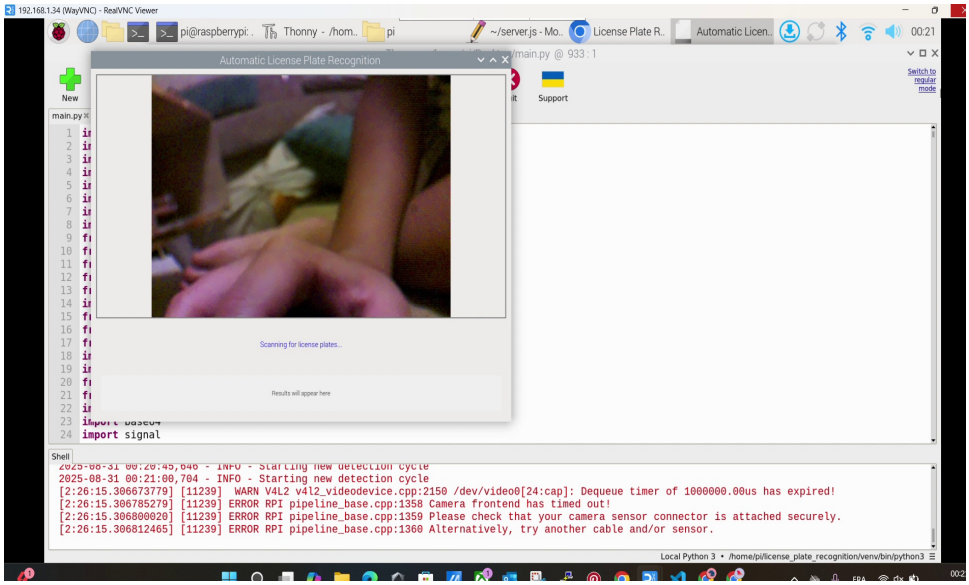
Frame at 30s: Resolution 1890x1050. Bright scene with high contrast. Visual content analysis requires AI model access.



Timestamp: 0:00:40

Visual Content:

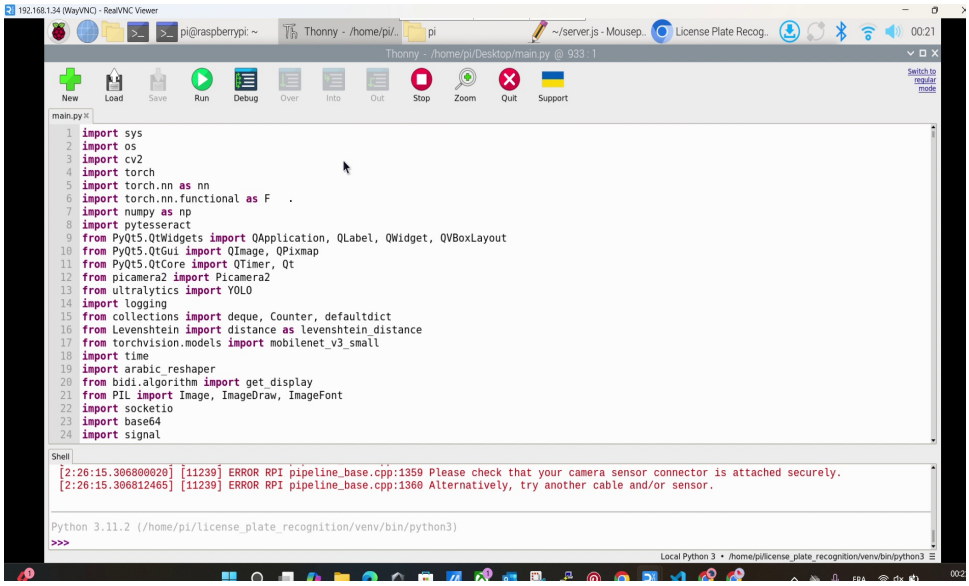
Frame at 40s: Resolution 1890x1050. Bright scene with high contrast. Visual content analysis requires AI model access.



Timestamp: 0:00:50

Visual Content:

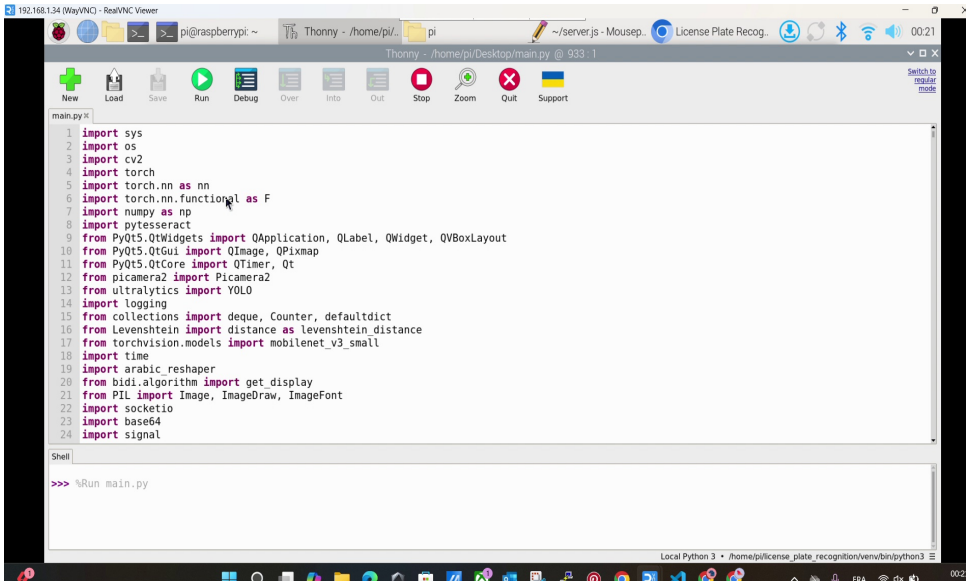
Frame at 50s: Resolution 1890x1050. Bright scene with high contrast. Visual content analysis requires AI model access.



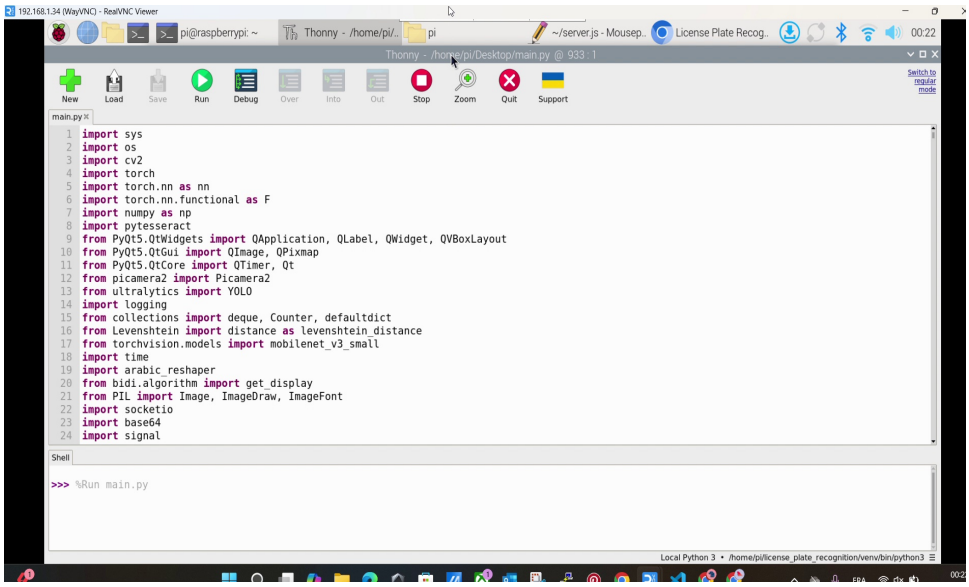
Timestamp: 0:01:00

Visual Content:

Frame at 60s: Resolution 1890x1050. Bright scene with high contrast. Visual content analysis requires AI model access.



Timestamp: 0:01:10

Visual Content:


Frame at 70s: Resolution 1890x1050. Bright scene with high contrast. Visual content analysis requires AI model access.
